- “Attention can be retained from every 5 to 6 seconds once, this kind of shifting is called – Fluctuation of Attention
- What is called the „Gate way of knowledge?“ – The five sense organs
- What are the 3 laws of perception – 1. The law of Proximity, 2. The Law of similarity, 3. The law of closure
- What are the errors of perception – Illusion & Hallucination
- If we mistake the rope for a snake at dim light, is called – Illusion (or) Wrong perception
- If one’s Memory image is mistaken for perception (in the absence of any stimulus) is called – Hallucination (or) false perception
- Mirage is the best example for – Hallucination
- Miller & Lyre illusion is
- An organization of ideas (or) concepts is called – Thinking
- “The world is nothing but a booming, buzzing confusion“ is a quotation said by – William James
- A child who obtains it’s knowledge through objects with actions this process was entitled by piaget as – Action schema
- What are the four stages of Piaget’s cognitive development –
 1. Sensory motor stage (0 -2years),
 2. Pre- Operational stage (2- 7years)
 3. Period of Concrete Operation (7-12years)
 4. Period of formal Operation (12Years onward)
- Iconic means – A picture representation
- Who is the author of the book „The conditions of Learning?“ – Gagne
- One’s Potential ability is otherwise known as – Attitude
- Special aptitude tests are – 1. Seashore’s measure of musical talents, 2. Maier’s Arts judgment test
- DAT is the abbreviation of – Deferential Aptitude Test
- The expansion of „GATB“ is – General Aptitude Test Battery
- Who says „Adolescence period is the period of stress and strain; storm and strive?“ – Stanley Hall
- Insight learning is put forwarded by – Kohler
- Insight learning is associated with – Gastltain Principal of learning
- By whom was the test conducted for insight learning – Kohler (German Psychologist)
- What are the apparatuses Kohler chosen fro conducting insight learning experiment – Sultan (chimpanzee), a bunch of bananas, Wooden boxed and sticks
- Gagne introduced – Eight types of learning
- “The gain is small in the beginning but with practice the gain increase what type of learning curve is this?“ – Positively Accelerated Learning curve(or) Concave learning curve
