The county inspector was a round little man with a red face and a whole box of tools with dials and wires. He smiled at Margie and gave her an apple, then took the teacher apart. Margie had hoped he wouldn't know how to put it together again, but he knew how all right and after an hour or so, there it

was again, large and black and ugly with a big screen on which all the lessons were shown and the questions were asked. That wasn't so bad, the part Margie hated most was the slot where she had to put the test papers. She was 6 years old, and the mechanical teacher calculated the marks in no time.

- What was the appearance of the county inspector?
- Which part did Margie hate most?
- What is the name of the fruit given to Margie?
- What happened to Margie when she six years old?
- How did the mechanical teacher calculated the marks?

Butterflies are found in gardens. They look very beautiful with all the colours of the rainbow. There are about 50,000 different kinds of butterflies. They fly from flower to suck nectar. The feelers help the butterfly to find its way. The tube mouth helps it to suck nectar and the tiny holes on the sides of its body help it to breathe. In the life cycle, of the butterfly, there are four stages-egg, larva, pupa and adult. The life span of a butterfly is very short. William Wordsworth wrote a poem on the butterfly. He said that he could not tell whether it was sleeping or feeding.
