The word "dragon" comes from the ancient greek word 'draconta' meaning 'to watch', suggesting that the drangons are responsible for guarding valuables. Dragons typically gurad treasures such as mountains of gold coins or gems. Some dragons have wings, others don't. Some dragons breathe fire, others can't. Some are only a few feet long; others span miles. Some live under the ocean; others can only be found, in caves and inside the mountains.
