44. Write a summary or make notes of the following passage :

Laughing is an excellent way to reduce stress in our lives; it can help you to cope with and survive a stressful life. Laughter provides full-scale support for your muscles and unleashes a rush of stress busting endorphins. Since our body cannot distinguish between real and fake laughter, anything that makes you giggle will have a positive impact. Laughter Therapy aims to get people laughing, in groups and individual sessions and can help reduce stress, make people and employees happier and more committed, as well as improve their interpersonal skills. This laughter comes from the body and not the mind. Laughter Yoga is a practice involving prolonged voluntary laughter. It aims to get people laughing in groups. It is practised in the early mornings in open parks. It has been made popular as an exercise routine developed by Indian physician Madan Kataria, who writes about the practice in his book. Laughter Yoga is based on the belief that voluntary laughter provides the same physiological as well as psychological benefits as spontaneous laughter.

Economic development is not possible without education. For economic development it is the quality of labour that is more important. Unskilled workers, even working for long hours, will have a low per capital income. Illiterate and untrained persons cannot be expected to operate and maintain complex machinery. It is by investing in them that their productivity can be increased. It is through public education that the state can increase the effective labour supply and hence the productive capacity of the nation. An educational programme has to be wide and varied. There is need for compulsory education for every child. More secondary schools are required to provide materials for the universities. At the same time, training institutes are needed for educating agricultural assistants etc. investment in human capital is highly productive. India needs agricultural and industrial technicians, doctors, engineers, teachers, administrators, etc. who would lead to a greater increase in the flow of goods and services, thereby accelerating the tempo of development.
