HIGHER SECONDARY FIRST YEAR

ECONOMICS

Unit-1

Introduction to Micro Economics

Choose the correct answer

- 1. 'Economics is a study of mankind in the ordinary business
- of life' -It is the statement of
- a. Adam Smith b. Lionel Robbins
- **c.** Alfred Marshall **d.** Samuelson
- 2. The basic problem studied in Economics is
- a. Unlimited wants **b.** Unlimited means
- d. Strategy to meet all our wants c. Scarcity
- 3. Microeconomics is concerned with
- a. The economy as a whole
- **b.** Different sectors of an economy
- c. The study of individual economicunits behaviour
- **d.** The interactions within the entire economy
- 4. Which of the following is a microeconomics statement?
- a. The real domestic output increased by 2.5 percent last year.
- b. Unemployment was 9.8 percent of the labour force last year.
- c. The price of wheat determines its demand
- **d.** The general price level increased by 4 percent last year.
- 5. Find the odd one out:
- a. "An inquiry into the nature and the causes of the Wealth of Nations"
- b. "Principles of Economics"
- c. "Nature and Significance of Economic Science"
- **d.** "Ceteris paribus"
- 6. The equilibrium price is the price at which
- **a.** Everything is sold **b.** Buyers spend their money
- c. Quantity demanded equals quantity supplied
- d. Excess demand is zero
- 7. Author of "An Inquiry into the Nature and Causes of Wealth of Nations"
- a. Alfred Marshall
- **c.** Lionel Robbins
- d. Paul A Samuelson 8. "Economics studies human behaviour as a relationship

between ends and scarce means which have alternative uses" is the definition of economics of

- a. Lionel Robbins
- c. Alfred Marshall
- d. Paul A Samuelson

b. Adam Smith

d. Paul A Samuelson

b. Adam Smith

- 9. Who is the Father of Economics?
- a. Max Muller **b.** Adam Smith
- c. Karl Marx
- 10. "Economics is a science" The basis of this statement is—
- a. Relation between cause and effect
- **b.** Use of deductive method and inductive method for the formations of laws
- c. Experiments **d.** All of the above

- **11.** Utility means
- a. Equilibrium point at which demand and supply are equal
- **b.** Want-satisfying capacity of goods and services
- c. Total value of commodity d. Desire for goods and services 12. A market is
- a. Only a place to buy things b. Only a place to sell things
- c. Only a place where prices adjust
- d. A system where persons buy and sell goods directly or indirectly

13. Which one of the following is **not** a point in the Welfare Definition of Economics?

- a. Study of an ordinary man
- b. Economics does not focus on wealth alone
- c. Economics is the study of material welfare
- d. Economics deals with unlimited wants and limited means
- 14. Growth definition takes into account
- a. The problem of choice in the dynamic framework of Economics
- **b.** The problem of unlimited means in relation to wants
- c. The production and distribution of wealth
- d. The material welfare of human beings

15. Which theory is generally included under micro economics?

- a. Price Theory
- **b.** Income Theory c. Employment Theory d. Trade Theory
- 16. have exchange value and their ownership
- rights can be established and exchanged
- a. Goods **b.** Services c. Markets **d.** Revenue
- **17.** Identify the correct characteristics of utility
- a. It is equivalent to 'usefulness' b. It has moral significance c. It is same as pleasure
- d. It depends upon consumer's mental attitude
- 18. Who has given scarcity definition of economics?
- **a.** Adam Smith **b.** Marshall c. Robbins d. Robertson
- 19. The process of reasoning from particular to general is
- a. Deductive method
 - **b.** Inductive method **d.** Normative economics
- **c.** Positive economics
- **20.** Total revenue is equal to total output
- Sold multiplied by a. Price
 - b. Total cost
- c. Marginal revenue d. Marginal cost

UNIT - 2**Consumption Analysis**

Choose the correct answer

- **1.** Pick the odd one out
- a. Luxuries **b.** Comforts
- **c.** Necessaries d. Agricultural goods
- 2. Choice is always constrained or limited by the _____ of our resources.
- a. Scarcity **b.** Supply c. Demand d. Abundance
- 3. The chief exponent of the Cardinal utility approach was
- a. J.R.Hicks **b.** R.G.D.Allen **c.** Marshall d. Stigler
- 4. Marginal Utility is measured by using the formula of
- a. TUn-TUn-1 **b.** TUn-TUn+1
- c. TUn+TUn+1 d. TUn-TUn+1

Subscribe: https://www.youtube.com/@Marutham acadamy 5. When marginal utility reaches zero, the total utility will be 2. The man-made physical goods used to produce other goods **a.** Minimum **b.** Maximum c. Zero d. Negative and services are referred to as. 6. Gossen's first law is known as. **b.** Labour c. Capital d. Organization. a. Land **3.** Formula for calculating AP is a. Law of equi-marginal utility. b. Law of diminishing marginal utility **a.** $\Delta TP/N$ **b.** $\Delta TP/\Delta N$ d. TP/N c. TP/MP **c.** Law of demand. d. Law of Diminishing returns. 4. Which factor is called the changing agent of the Society 7. The basis for the law of demand is related to a. Labourer **b.** Land c. Organizer d. Capital a. Law of diminishing marginal utility 5. Who said, that one of the key of an entrepreneur is **b.** Law of supply c. Law of equi-marginal utility. **d.** Gossen's Law. "uncertaintybearing". 8. The concept of consumer's surplus is associated with a. J.B.Clark b. Schumpeter c. Knight d. Adam Smith 6. The functional relationship between "inputs" and "outputs" a. Adam Smith b. Marshall c. Robbins d. Ricardo 9. Given potential price is Rs.250 and the actual price is is called as Rs.200. Find the consumer surplus. a. Consumption Function **b.** Production Function **d.** 50 **a.** 375 **b.** 175 **c.** 200 c. Savings Function d. Investment Function 10. Indifference curve approach is based on 7. In a firm 5 units of factors produce 24 units of the product. a. Ordinal approach **b.** Cardinal approach When the number of factor increases by one, the production **c.** Subjective approach d. Psychological approach increases to 30 units. Calculate the Avarage Product. **c.** 5 11. The concept of elasticity of demand **a.** 30 **b.** 6 🔶 **d.** 24 was introduced by 8. The short-run production is studied through a. Ferguson b. Keynes c. Adam Smith d. Marshall a. The Laws of Returns to Scale **12.** Increase in demand is caused by b. The Law of Variable Proportions **b.** Higher subsidy **a.** Increase in tax **c.** Iso-quants d. Law of Demand c. Increase in interest rate d. decline in population 9. The long-run production function is explained by 13. The movement on or along the given demand curve is a. Law of Demand b. Law of Supply known as c. Returns to Scale d. Law of Variable Proportions a. Extension and contraction of demand. 10. An Iso-quant curve is also known as **b.** shifts in the demand. **a.** Inelastic Supply Curve **b.** Inelastic Demand Curve **c.** increase and decrease in demand. **d.** all the above **c.** Equi-marginal Utility d. Equal Product Curve 14. In case of relatively more elastic demand the shape of the **11.** Mention the economies reaped from inside the firm a. financial b. technical c. managerial d. all of the above curve is a. Horizontal b. Vertical _____. Steeper d. Flatter **12.** Cobb-Douglas production function assumes 15. A consumer is in equilibrium when marginal utilities **a.** Increasing returns to scale **b.** Diminishing returns to scale c. Constant returns to scale d. All of the above from two goods are a. Minimum b. Inverse c. Equal **d.** Increasing 13. Name the returns to scale when the output increases by 16. Indifference curve was first introduced by more than 5%, for a 5% increase in the inputs, a. Hicks **b.** Allen c. Keynes d. Edgeworth **a.** Increasing returns to scale **b.** decreasing returns to scale **17.** Elasticity of demand is equal to one indicates **c.** Constant returns to scale **d.** All of the above a. Unitary Elastic Demand b. Perfectly Elastic Demand 14. Which of the following is not a characteristic of land? c. Perfectly Inelastic Demand d. Relatively Elastic Demand **a.** Its limited supply **b.** It is mobile 18. The locus of the points which gives same level of c. Heterogeneous d. Gift of Nature 15. Product obtained from additional factors of production is satisfaction is associated with **a.** Indifference Curves **b.** Cardinal Analysis termed as d. Law of Supply c. Law of Demand a. Marginal product **b.** Total product 19. Ordinal Utility can be measured by c. Average product **d.** Annual product **a.** Ranking **b.** Numbering **c.** Wording d. None of these **16.** Modern economists have propounded the law of **20.** The indifference curves are **a.** Increasing returns **b.** decreasing returns a. vertical **d.** variable proportions. **b.** horizontal c. Constant returns **17.** Producer's equilibrium is achieved at the point where: c. positive sloped d. Negatively sloped **UNIT – 3** Production Analysis a. Marginal rate of technical substitution (MRTS) is greater than the price ratio Choose the correct answer **b.** MRTS is lesser than the price ratio **1.** The primary factors of production are: c. MRTS and price ratio are equal to each other a. Labour and Organisation **b.** Labour and Capital d. The slopes of isoquant and isocost lines are different. c. Land and Capital d. Land and Labour.
