- Tax Deducted at Source (TDS) refers to an advance tax which is deducted from the income or earnings of an individual or an organization before actually crediting the income into the account of an individual or entity, as per the Taxation Code of India.
- TDS is deducted from various incomes such as Salary and non-salary.

Deductor is liable to deduct the TDS and further deposit it to the government. TDS Return refers to a quarterly statement that is submitted by the deductor to the Income Tax Department.

### Different Types of TDS Return Forms
