www.Trb Tnpsc.Com

Greetings to all the Teachers and Students,

Our Dolphin Publications - Social Science guide for 9th Standard is designed with the suggestions and guidance of many Social Science teachers for many decades. It is exam oriented. It is prepared on the basis of students in different learning levels.

SALIENT FEATURES :

- > Answers for All the Textual Questions.
- ► Answers for Higher Order Thinking.
- > Answers are very simple and easy to understand.
- Five marks Question Answers and Eight marks Question Answers are point based.
- > A special book for Learning and Practicing Maps.
- ► A separate part for Learning Time Lines.

()

We hope this guide will lead you to score 100/100 in Social Science in the upcoming Public Examination.

Best Wishes From the Publisher

HISTORY

UNIT 1

Evolution of Humans and Society - Prehistoric Period

🗊 Learning Objectives

- To trace the world's early history
- To understand human evolution
- To know prehistoric Tamilagam up to the Iron Age

***** Learning Outcomes

- SST920 ➤ Illustrates how different social groups coped with changes in the contemporary world and describe these changes.
- SST909 ➤ Describes economies and livelihoods of various social groups
- SST947 ➤ Ideas on the basis of Oral and written accounts of living historical legend makers; people as a resource

I. CHOOSE THE CORRECT ANSWER

1	is genetically closest to l	humans	
a) Gorilla	b) Chimpanzee	c) Orang-utan	d) Great Apes
			[b) Chimpanzee]
dolphin.pub2005@g	gmail.com	1	www.kalvidolphin.com

HISTORY

UNNAL MUDIYUM

II. FILL IN THE BLANKS

- **1.** Hand axes and cleavers are the important tool types of the culture. [Lower palealithic]
- 2. The methods and techniques involved in the production of stone tools are called [Lithic] technology.
- is known as the Middle Stone Age, as it is placed between the Paleolithic and 3. Neolithic. [Mesolithic]

III. FIND OUT HE CORRECT STATEMENT

1. a) The concept 'survival of the fittest' contributed to the scientific understanding of human origins.

- b) The book "On the Origin of Species" was published by Herbert Spencer.
- c) Darwin's theory of biological evolution connects with the process of natural selection.
- d) Geology is the study of lithic technology.

[a) and c) are the correct statements.]

- 2. a) Among the great Apes Orang utan isgenetically the closest to humans.
 - b) The ancestors to humans were called Hominins and their origins have been traced to Africa.
 - c) Flake canot be used for tool making.
 - d) Acheulian is the main block of stone from which small chips are flaked by using a hammer stone.

b) The ancestors to humans were called Hominins and their origins have been traced to Africa.

IV. MATCH THE FOLLOWING

			Answer
1.	Palaeo anthropology	Teris	The study of the human
			ancestors
2.	Hand axe tools	Venus	Acheulian
3.	Images on stone and bone	Acheulian	Venus
4.	Red sand dunes	Microliths	Teris
5.	Stone artefacts of small size	The study of the human ancestors	Microliths

dolphin.pub2005@gmail.com

www.kalvidolphin.com

HISTORY

UNNAL MUDIYUM

V. ANSWER THE FOLLOWING BRIEFLY

- 1. Discuss how the age of speculation made humans become conscious and Knowledgeable.
 - > In the course of evolution, humans became conscious and knowledgeable.
 - They turned curious and began to think and ask questions about nature organisms and the world.
 - They worshiped nature as god.

2. Write a note on the impact of pastoralism on the prehistoric people in TamilNadu.

- The people in the Iron Age practiced agriculture, domesticated cattle and sheep, and some of the groups were still hunting and gathering.
- > Millets and rice were cultivated.
- > Irrigation management developed in this period.

3. List out the features of Megalithic Burial types.

- The Iron Age is also known as megalithic, since people created burials with large stones for the dead people.
- Within these burials the skeletons or few bones of the dead persons were placed along with grave goods including iron objects, carnelian beads and bronze objects.
- Some of the burials do not have human bones and they have only the grave goods.
- They may be called memorial burials.

4. Examine the tool making technical skills of lower Paleolithic people.

- ➤ Large stones were combed into flakes and hand axes were produced.
- They designed various tools including hand axes, cleavers etc... Which were known as bifaces.
- > These tools have physical symmetry and the cognitive skills of human.

VI. ANSWER ALL THE QUESTIONS GIVEN UNDER EACH CAPTION

1. The developments in the fields of agriculture, pottery and metal tools are considered a landmark in the life of Megalithic period - Substantiate.

Agriculture :

- People practiced agriculture, domesticated cattle and sheep
- Some groups were still hunters and gatherers.
- Millets and rice were cultivated
- Irrigation technology developed.

dolphin.pub2005@gmail.com

www.kalvidolphin.com

HISTORY

UNNAL MUDIYUM

Pottery :

- > Pottery was made by hand or with a slow spinning wheel
- Pottery was polished with pebbles before firing
- Pottery were used for cooking, storage and dining
- > Black and redware pottery had black inside and red outside, with shining surfaces

Metal Tools :

- > Swords, daggers, axes, lamps and tripod stands are also found
- > Iron tools were used for agriculture, hunting, gathering and for fighting too.
- > Megalithic burials have metallic grave goods.

2. The history of humans is closely related to the history of the Earth. Elucidate.

- There are geological, archaeological and biological records of historical times on the upper layers of the earth.
- > These are important for rebuilding the history of the earth and other living organisms.
- > Human history cannot be separated from earth's history
- > Even the fossil bones of the human ancestors are embedded in the earth's layers.
- Earth is thought to have formed about 4.54 billion years ago.
- > Over time the conditions for the emergence of life gradually evolved.
- > Following the appearance of plants and animals, the foundation for human life was laid.
- > Earth's history is divided into eras, periods and epochs by the geologists.

VII. STUDENT ACTIVITIES (FOR STUDENTS)

- 1. Mark the prehistoric sites on the world map
- 2. Organize and exhibition on the pre-historic sites of Tamil Nadu.

	Statement II : The movement of tectonic plates is due to the thermal energy from the mantle					
			4 N			

- a) Statement I is false II is true
- c) Statement I is true II is false
- b) Statement I and II are false
- d) Statement I and II are true
 - [a) Statement I is false II is true]

IV. ANSWER IN BRIEF

1. Write a brief note on the various spheres of the Earth.

- > The lithosphere is the solid outer part of the earth
- > The atmosphere is a thin layer of gases that surrounds the earth
- > The hydrosphere is the watery part of the Earth's surface.
- > The biosphere is the layer of earth where life exists.

2. Mention the layers of the interior of the Earth.

The earth's interior is divided into three layers, the crust, the mantle and the core.

3. Define: Plate tectonics.

- > The lithosphere is divided into many huge slabs of rocks, which are called 'tectonic plates'.
- > The plates float on the mantle.
- > These plates collide against each other.
- > This happens both on land and oceans.
- > This is called 'plate tectonics'.

4. What is Tsunami?

- > Tsunami is a Japanese term, which means 'harbour waves.
- > They are large sea waves caused by Earthquakes, submarine explosions and landslides.
- > They travel at great speed and rise to great heights, causing destruction.

5. What is a Volcano? Mention its major components.

- > A volcano is a vent or an opening on the surface of the earth's crust
- Hot, solid, liquid and gaseous materials also called magma erupt out to the surface from the Earth's interior.
- > The major components of volcano are the magma chamber, vents, volcanic cone and crater.

dolphin.pub2005@gmail.com

www.kalvidolphin.com

GEOGRAPHY

UNNAL MUDIYUM

6. What is an Earthquake and how it occurs?

- > Earthquakes are generally caused by the sudden vibration in the earth's crust.
- > The point of origin of an earthquake is called focus which generates a series of elastic waves.

7. What are seismic waves and mention its types?

- Seismic waves are generated by earthquakes.
- The nature, speed and force of these waves vary according to the medium through which it passes.
- > These are three major types of waves.
 - 1. Primary or P-waves.
 - 2. Secondary or S-waves and
 - 3. Surface or L-waves.

8. Write about the Pacific Ring of fire.

- > The pacific Ring of fire is an arc around the pacific ocean.
- > The pacific plate meets many surrounding plates.
- > This is the most seismically and volcanically active zone in the world.

V. GIVE REASOONS FOR THE FOLLOWING

1. SIAL floats over SIMA

- > SIAL floats over SIMA because SIAL is less dense and lighter.
- SIAL consists of Silica and Aluminium which is lighter than SIMA which contains silica and Magnesium. Therefore SIAL floats or SIMA.

2. Igneous rocks are also called primary Rocks or Mother rocks.

Igneous rocks are also called primary or mother rocks because all other rocks are directly or indirectly formed from them.

VI. DISTINGUISH BETWEEN

1. Core and crust.

Core	Crust
Innermost layer of the earth	Outer layer of the earth
It is composed of mainly Nickel and Iron	Major elements are Silica and Aluminium
	(SIAL), and silica and Magnesium (SIMA)

dolphin.pub2005@gmail.com

www.kalvidolphin.com

GEOGRAPHY

UNNAL MUDIYUM

2. Epicentre and Hypocentre

Epicentre	Hypocentre		
Epicentre is the point on the earth's	The point of origin of an Earthquake under the		
surface that lies above the focus	earth is called 'focus' or Hypocentre		
The impact of the Earthquake is felt	It generates a series of elastic waves		
the most here			

3. Divergent and convergent boundaries.

Divergent boundaries	Convergent boundaries		
The plates move away from each other	The plates move towards each other		
Magma pushes up from the mantle in	Sometimes, a plate sinks below another plate		
this type of boundaries			

4. Primary waves and Secondary waves.

Primary waves	Secondary waves.
These waves pass through solids,	These waves travel only through solids
liquids and gases	
Average velocity 5.3 km per	Average velocity 1 km per second to 8 km per
second to 10.6 km per second	second

5. Shield volcano and volcanic Dome

Shield volcano	Volcanic Dome.
Formed by intense viscous lave	Formed by slow ejection of viscous lave
Flows out in all directions	Prevented from flowing far from its vent.
E.g., Mauna Loa, Hawaii	E.g. Paricutin, Mexico

VII. WRITE ANSWERS IN A PARAGRAPH

1. Describe the structure of the Earth.

Interior of the earth

There are three layers in the Earth's interior

a) Crust

- ➤ We live on this outer layer of the earth
- > It is the solid and rigid layer of the earth
- ➤ Its thickness ranges between 5.30 km
- > It is divided into continental crust and oceanic crust
- > The major elements are silica (Si), Aluminium (Al) and magnesium

dolphin.pub2005@gmail.com

www.kalvidolphin.com

GEOGRAPHY

UNNAL MUDIYUM

b) Mantle

- Mantle is the part beneath the crust
- ➢ It is about 2900 km thick
- > The upper part is solid, while the lower part has molten rock, called 'magma'

c) Core

- > The core is the innermost and hottest layer of the Earth.
- ➢ It lies below the mantle
- ➤ It mainly has Nickel (Ni) and Iron (Fe)
- ➢ Hence it is called NIFE
- > It is divided into solid inner core and the liquid outer core
- > As it has large quantities of iron, it generates magnetic fields.

2. Write a note on the internal and external processes of Earth.

- > There are two broad processes that change the surface of the earth
- These geomorphic processes are,
 - 1. Internal or Endogenetic processes.
 - 2. External or Exogenetic processes.

(i) Internal Processes:

- > These generate heat and eject materials from deep below the earth crust
- Huge slabs of rocks called tectonic plates moves
- This movement causes various events like earthquakes, Tsunamis and Volcanic eruptions, form mountain ranges.

(ii) External Processes:

- > Natural agents like running water, glacier, wind, waves etc., act on the surface of the earth
- > They bring changes in the landforms
- > Low lying plains are formed due to these processes.

3. How are volcanoes classified based on the periodicity of their eruptions?

Based on the periodicity or eruptions, volcanoes can be classified as

(i) Active Volcano:

- > Active volcanoes keep ejecting volcanic lava, gases and other fragments
- ➢ E.g. Mount St. Helens in the USA

dolphin.pub2005@gmail.com

www.kalvidolphin.com

GEOGRAPHY

UNNAL MUDIYUM

(ii) Dormant Volcano:

- > Dormant volcano remain inactive for a long period of time
- But a sudden explosion may cause great loss of life and property
- E.g. Mt. Fujiyama, Japan

(iii)Extinct or Dead Volcano:

- > Extinct volcanoes are those which have stopped their volcanic activity.
- E.g. Mt. Kilimanjaro, Tanzania

4. Explain the effects of Volcanoes.

(i) Constructive effects:

- Volcanic materials enrich the soil fertility
- ▶ Hot volcanic region helps in generate geothermal energy.
- > Many dormant and active volcanoes are most attractive tourist spots
- Volcanic materials are used for buildings

(ii) Destructive effects:

- > Volcanic eruption causes earthquakes, flash floods, mud slide and rock fall.
- > Lava travels very far and burn, bury or destroy anything in its path
- Large amount of dust and ash creates breathing issues
- Eruptions alter weather conditions
- They disrupt transport in that region
 E.g. Iceland Volcanic eruption.

VIII. MAP SKILL

On the given outline map of the word mark the following:

- a. Pacific Ring of fire
- b. Earthquake prone zones (any two)
- c. Locate any two active volcanoes of the world.
- d. Himalayas and Alps ranges

IX. LIFE SKILLS

Imagine that you feel tremors or shocks in your locality. What will be your role in saving lives from destruction? List out the Do's and Don'ts.

(i) Go to open spaces:

Once the tremors finish then people should leave their houses and go to open spaces and wait for any aftershock if it occurs.

dolphin.pub2005@gmail.com

GEOGRAPHY

UNNAL MUDIYUM

(ii) Disaster management:

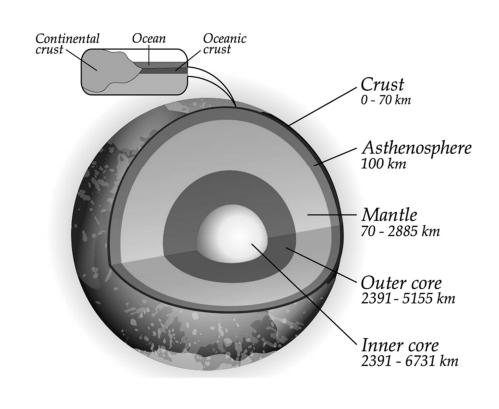

- A disaster management kit must be prepared and kept ready in an easily accessible area of the home for immediate evacuation.
- It is crucial that people should not be panic and start running out when the tremors are on. That can lead to more accidents.

(iii) Do's :

- > Move out in full open space like an empty ground.
- > If not possible to move out, take shelter under a sturdy desk. (duck and drop technique)
- > Keep an emergency first aid kit ready having essentials like food, medicines torch etc.

(iv) Don'ts :

- Stay away from electrical wirings.
- Stay away from glass windows and buildings or any such material which may fall and hurt you.
- Most important, don't create chaos and be calm and composed.

2. Explain the conditions necessary for the success of democracy in India.

- > Empowerment of the poor and illiterates to enjoy the goodness of democracy.
- > Willingness among the elected people not to misuse their powerful position and public wealth.
- > Presence of strong public opinion.
- Impartial and efficient press.
- > Feelings of tolerance and communal harmony among people.
- > Awareness of fundamental rights among people.
- > Vigilance regarding the work of elected representatives.
- > Powerful and responsible opposition.

3. What is your opinion about democracy in India?

- > Democracy in India has a lot of scope for Improvement.
- > It can be successful only if the citizens imbibe the basic values like
 - ✤ Equality
 - Freedom
 - Social justice
 - ✤ Accountability and
 - Respect for all, in them.
- > Their thoughts and behavior should be in tune with the democratic conditions.
- > They should make use of opportunities.
- > They should fulfill obligations.
- > They should play an active role in attaining the democratic goals.

VI. PROJECT AND ACTIVITY

- 1. Discuss in the class what is universal adult franchise? Why is it important?
- 2. "Democracy is the power of majority which respects minority." Discuss.
- 3. Conduct a mock election in your class.
- 4. A group discussion on the merits and demerits of democracy of India in the classroom.

VII. HOTS

- 1. Will you have the right to equality under dictatorship? What would be the attitude regarding public opinion in such a country?
 - \blacktriangleright Dictatorship is a form of government in which the ruler acts as a dictator.
 - > There is no freedom of expression or freedom of right.
 - For example: Germany- Hitler, Italy- Mussolini, Russia- Stalin, and Franco of Spain. People's voices are being suppressed.

DOLPHIN-9TH Social science CIVICS UNNAL MUDIYUM

2. How does democracy lead to a peaceful and a harmonious life among the citizens? Explain.

Democracy lead to peaceful and harmonious life among citizens

- Democracy accommodates various social divisions.
- > Democracy reduces the possibility of tensions becoming explosive and violent.
- Ability to handle social differences and conflicts among different groups is a plus point of democracy.
- Democracy develops procedure to conduct healthy competitions among different groups in a society.
- > Democracy respects differences and provides mechanism to resolve them
- Democracy always accommodates minority view.

VIII. LIFE SKILLS

1. Select a group of countries. Research each country and tell what type of government it has: Aristocracy, Monarchy, Autocracy, Oligarchy, Theocracy, Democracy, and Republic. Then, provide characteristics of this country that helped you determine the type of government.

Country Name	Types of Government	Characteristics of the country government
England	Aristocratic	Aristocracy of the United Kingdom with people elected representatives
Vatican	Theocratic	The practice of having government system under the Pope
India and France	Democratic	The electoral system is run by the people's Representative
Bhutan and Qatar	Monarchy	The hereditary system of government which control the state
Soviet Union, China, Venezuela, Cuba and North Korea	Oligarchy	A small group of people has the system of government that controls the country or organization. Example: Communist government

3.	The state having the hi	ghest literacy rate	in India is		[Ke	rala]
4.	4. Human Development Report of the world prepared and released by					
			[UNDP (Unit	ed Nations Develo	opment Program	me)]
5.	Groundwater is an exa	mple of	_ resource.		[Renew	able]
6.	The book An Uncertain	n Glory was writte	n by		[Prof. Amartya	Sen]
	III. MATCH THE FOLLOWING					
			P		swer	
	1. Development	a) Wild life P	rotection Act	c) Part of dail	y life	
	2. Human resource	b) Renewable	resources	d) Education		
	3. Solar energy	c) Part of dail	y life	b) Renewable	resources	

IV. GIVE SHORT ANSWERS

1. What do you mean by development?

4. 1972

- > Development refers to the progress of a particular field or a particular person
- > The economic progress of a country is known as "economic development"

d) Education

2. What are the indicators of development?

- Net National Product (NNP)
- Purchasing Power Parity (PPP)
- Per Capita Income (PCI) and
- Human Development Index (HDI)

dolphin.pub2005@gmail.com

172

DOLPHIN-9TH Social science ECONOMICS UNNAL MUDIYUM Improvement Growing process in a Progress needed direction Freedom to grow Development Way of moving forward Bettering yourself Not doing same Never ending mistake twice Grows within Advance process

3. Why NNP is not considered as an useful measure to compare a country's development with other countries?

- > The Net National Product (NNP) only measures total income of a country.
- Since countries differ in population, measuring their total income will not be useful to compare economic development of one country with another.
- 4. Why human resources is considered as the foremost resource of any country?
 - Human resource is necessary for the progress of any country.
 - > Human resources is very essential in most of the manufacturing sector.
 - Therefore investment in human resource (Education and health) can result in high rate of returns in future.

5. Expand the following: i) PPP ii) HDI

PPP: Purchasing Power Parity

HDI: Human Development Index.

6. Expand the following: i) NNP ii) PCI

NNP: The Net National Product

PCI: Per capita income

7. What is 'Solar Power'?

- Solar power is the conversion of energy from sunlight into electricity either directly using photovoltaic cells or indirectly using concentrated solar power.
- > Solar panels absorb the sunlight as a source of energy to generate electricity.

dolphin.pub2005@gmail.com

www.kalvidolphin.com

ECONOMICS

UNNAL MUDIYUM

V. ANSWER IN DETAIL

1. Discuss the policies for sustainable development.

- ➤ Use of Non-conventional sources of energy.
- Solar power in India.

Use of Non-conventional sources of energy.

- > India depends on thermal and hydro power plants to meet its power needs.
- > Both these sources have an adverse environmental impact.
- > Thermal power plants emit large quantities of carbon–dioxide, which pollute the environment.

Solar Power in India

- Solar power is the conversion of energy from sunlight into electricity either directly using photovoltaic cells or indirectly using concentrated solar power.
- > Solar panels absorb the sunlight as a source of energy to generate electricity.
- > Solar electric system can reliably produce electricity for our home and offices.

2. Describe in detail about environmental policies in India.

- > Environment policies in India have been evolved considerably over the past three decades.
- These policies have covered a wide range of issues such as air, water pollution, waste management and biodiversity conservation.
- ➤ India faces challenges in economic development, which has to be achieved with limited resources minimum externalities and in the presence of an uncertain climate.
- > One of the approaches to overcome this challenges is through the path of sustainable development.
- > The Supreme Court of India has interpreted and introduced new changes in environmental protection through a series of directions and judgements.
- Article 51A (g) of the Constitution states that "It shall be the duty of every citizen of India to protect and improve the natural environment including forests, lakes, rivers and wildlife" and to have compassion for living creatures.

3. Differentiate between renewable and non-renewable resources.

S. No	Renewable resources	Non- Renewable resources		
1.	Renewable resources are pollution free	Non-renewable resources pollute and damage		
	and environment friendly.	the environment.		
2.	These resources take a short time for	Million of years are needed for the formation		
	renewal.	of these resources.		
3.	Example: Solar energy, wind energy,	Example: Metals, glass fossil fuels		
	water wood. paper.	petroleum, Natural gas, diesel.

ECONOMICS

UNNAL MUDIYUM

- 4. Mention any five environmental Acts and their action.
 - (i).National Green Tribunal Act, 2010 :
 - > Environmental protection and conservation of forest and other Natural resource.
 - (ii).Biological Diversity Act, 2002 :
 - > To provide for conservation of biological diversity.
 - (iii). The Environment (Protection) Act, 1986 :
 - > Providing for the protection and improvement of the environment
 - (iv).Forest (Conservation Act, 1980) :
 - > Check deforestation and encourage afforestation of non-forest areas
 - (v).Wildlife protection Act, 1972 :
 - > Providing protection to wild animals and birds.

VI. PROJECTS AND ACTIVITIES (FOR STUDENTS)

1. List the various ways in which the problems of garbage and emissions are being dealt with around the world.

VII. HOTS

- 1. Write in detail what kind of environmental problems you face in your locality.
 - Air pollution, poor management of waste, growing water scarcity, falling groundwater tables, water pollution, biodiversity loss, and land/soil degradation are some of the major environmental issues today.
 - Through Quiz Students should list the environmental issues they encounter on the way to and from school in the village and town where they live.
 - > Urban garbage is dumped in public places. Industrial waste mixes with roads and rivers.
 - > The sewage of the house is mixed. Factory smoke is mixed with air and polluted.
 - Political Party Public Meeting, Art Festivals, Event Pollution Pollutants, Sound loudspeakers pollute the light at places such as temple festivals and wedding events.
 - > Festival Light System, Powerlit Fireworks Noises, Light up and affect us.

VIII. LIFE SKILL

1. How is the Per Capita income calculated?

- > The income of a country is one of the indicators of the economic growth of a country.
- To calculate the per capita income of a country, the total income of that country should be divided by the total population of the country.
- > Its average income is called per capita income.

 $PCI = \frac{National Income}{Total Population}$
