Tenkasi District
Common Half Yearly Examination - 2024

Time: 3.00 Hours

Standard 11
COMPUTER APPLICATIONS
Part - I

Marks: 70

 $15 \times 1 = 15$

- I) Answer all the questions.
- II) Choose the most appropriate answer from the given four alternatives and write the option code and the corresponding answer
- 1) For 1101, the Hexadecimal equivalent is

a) C	b) A	c) D	d) B
------	------	------	------
 - 2) File management manages:

a) Folders	b) Directory system
c) Files	d) All the above
 - 3) Find & Replace option is available in which menu?

a) Edit	b) Tools	c) File	d) Format
---------	----------	---------	-----------
 - 4) A column heading in Calc represents

a) Date	b) Symbol	c) Alphabet	d) Number
---------	-----------	-------------	-----------
 - 5) Which of the following symbol is used to define a closing tag?

a) %	b) /	c) <>	d) \
------	------	-------	------
 - 6) What is the short-cut key for undo?

a) Ctrl+Z	b) Ctrl+E	c) Ctrl+N	d) Ctrl+U
-----------	-----------	-----------	-----------
 - 7) Identify the extension of the Impress Presentation

a) .odb	b) .odp	c) .ood	d) .ppt
---------	---------	---------	---------
 - 8) USB, WiFi adapters are often called as:

a) Dongles	b) Data card	c) memory card	d) Pendrive
------------	--------------	----------------	-------------
 - 9) CSS is also called as

a) Inline Style Sheets	b) Sitewide Style Sheets
c) Internal Inline Sheets	d) Internal Style Sheets
 - 10) Larger Programs divided into smaller are called

a) Sets	b) modules	c) group	d) block
---------	------------	----------	----------
 - 11) What will be the result from the following formula? = A1 ^ B2 (Assume A1=25 B2 =1)

a) 252	b) 25	c) 251	d) 51
--------	-------	--------	-------
 - 12) Expand: DHTML

a) Distance High Text Markup Language
b) Distance Hyper Text Markup Language
c) Dynamic High Text Markup Language
d) Dynamic Hyper Text Markup Language
 - 13) The Parameters work as:

a) File variable	b) Block variable
c) Local variable	d) Global variable
 - 14) The process of converting cipher text to plain text is called

a) Firewall	b) Encryption	c) Proxy server	d) Decryption
-------------	---------------	-----------------	---------------
 - 15) statement can be used as an alternative to if..else statement

a) else If	b) while	c) switch	d) if
------------	----------	-----------	-------

Tsl11CA

2

Part - II**Answer any 6 questions. Q.No. 24 is compulsory.** **$6 \times 2 = 12$**

- 16) Write the functions of control unit
- 17) Convert $(46)_{10}$ into its equivalent Binary number.
- 18) What are the different Operating Systems used in computers?
- 19) What is a cell pointer?
- 20) What is a Network?
- 21) Write a short note on:
 - i) ``
 - ii) ``
- 22) List out the popular image formats
- 23) Write the general format of linking CSS with HTML?
- 24) What is cyber crime?

Part - III**Answer any 6 questions. Q.No. 33 is compulsory.** **$6 \times 3 = 18$**

- 25) What is radix of a number system? Give an example?
- 26) List out the key features of operating system?
- 27) What are the functions of windows operating system?
- 28) Classify the micro processor based on the size of the data
- 29) Write about inserting columns and rows in Calc
- 30) Differentiate Data Card and Dongles
- 31) Write a short note about the basic data types in Java Scripts
- 32) What is a function in Javascripts? Write its types?
- 33) Add:
 - a) $(-20)_{10} + (25)_{10}$
 - b) $(22)_{10} + (15)_{10}$

Part - IV**Answer all the questions** **$5 \times 5 = 25$**

- 34) a) Explain the basic components of a computer with a neat diagram
(OR)
b) i) Convert $(98.46)_{10}$ to Binary number.
ii) Add: $1101010_2 + 101101_2$
 - 35) a) Define slide sorter view and write its significance
(OR)
b) Explain about the changing of column width in Calc
 - 36) a) What is Header and Footer? How do you insert Page Numbers in footer area?
(OR)
b) Explain any five types of Internet services.
 - 37) a) Explain about the Arithmetic operator with suitable example
(OR)
b) What are the various crimes happening using the computer?
 - 38) a) Explain 'for' loop with an example
(OR)
b) Explain the types of ROM?
- - - - -

Tenkasi District

Hariyany Examination - 2024

Part-I Computer Applications - Answerkey.

Part-I.

1. C) D
 2. d) All the above.
 3. a) Edit
 4. c) Alphabet
 5. b) /
 6. a) Ctrl+Z
 7. b) .odp
 8. a) Songles.
 9. b) Site wide style sheets
 10. b) Modules
 11. b) 25
 12. d) Dynamic Hyper text Markup Language.
 13. c) Local Variable.
 14. b) Decryption
 15. c) Switch.

Part-II

(16) Functions of Control unit:

- * The control unit controls the flow of data between the CPU, memory and I/O devices (OR)
- * It also controls the entire operation of a computer.

— 2 marks

$$(146)_{10} = (101110)_2$$

— 2 marks

- (18) Windows, Linux, Unix, Mac OS (OR) ANY TWO operating systems.

— 2 marks

- (19) Cell pointer is a rectangle box which can be moved around the work sheet.

— 2 marks

(20)

A network is a collection of interconnected devices (such as computers, printers, etc.)

— 1 mark.

(21)

The `` tag is a phrase tag. This tag displays the text as bold — 1 mark.
 The `` tag is used to emphasize the text. That means, when you use this tag, the text will be in italics

— 1 mark.

(22)

GIF (Graphics Interchange Format)

JPEG (Joint Photographic Experts Group)

PNG (Portable Network Graphics)

SVG (Scalable Vector Graphics)

(Write any 2)

— 2 marks.

(23)

The `<link>` tag is used to embed CSS file with HTML in head section

General format of `<link>` tag.

`<link rel="stylesheet" type="text/css" href=CSS_file_Name_with_Extens ion>`

— 2 marks.

(24)

A cybercrime is a crime & involves computer and network

(OR)

Cyber crime is an intellectual, white-collar crime. Those who commit such crimes generally manipulate the computer system in an intelligent manner.

— 2 marks.

Part-III

25)

* Each number system is uniquely identified by its base value or radix

* Radix or base is the count of number of digits in each number system

— 2 marks.

Example: $(\sigma)_{10}, (\sigma)_2, (\sigma)_8 (\sigma)_{14} \rightarrow$ ~~Immer~~

26.
 - * User Interface
 - * Memory Management
 - * Process " "
 - * Security " "
 - * File " " A FAULT TOLERANCE . — 2 marks

27.
 - * Access Applications (Programs) on the computer . (Word Processing, games, spread sheets, calculators.)
 - * Load any new program on the computer
 - * Manage hardware such as printers, scanners, mouse, digital cameras
 - * File management activities
 - * creating, modifying, saving, deleting files and folders
 - * Change computer settings, such as color scheme, screen savers of your monitor (NOTE: any 3) — 3 marks

28. Depending on the data width, the microprocessor can be classified as follows:
 - * 8 bit microprocessor
 - * 16 " "
 - * 32 " "
 - * 64 " " — 3 marks

29. Inserting columns:
1. Select the column where a new column should be inserted
2. Right click on the selected column name that you selected. A pop up menu appears
3. Click the "Insert columns" option from the menu. Now, a new column will be inserted to the left of the current  TIN Column (or) 1/2 marks

Click Insert → Columns option from the menu.

Inserting Rows:

1. Select the row where you a new row to be inserted.

2. Right Click on the row number
a pop up menu appears step

3 Click "Insert Row" option from the menu.
Now a new row will be inserted to above
the current row

(or)

Click Insert → Row from the menu.

30.

Data card

* It is a removable electronic card which is used for storing data.

Types of data cards

- * Expansion Card
- * memory (or) Flashcard
- * Identification Card

— 1½ marks

Dongles

* Refers to any removable component used for enabling extra security. USB Dongles can be divided into

- * WiFi Dongles
- * Blue tooth
- * memory

— 3 marks

— 1 marks

31.

1. strings 2. Numbers 3. Boolean

String: A String is a list of characters

Numbers: Numbers can be integer or floating point numerical value.

Boolean: Boolean can be any one of two values true or false.

32.

Function :-

A Function is a block of Java Script code that is defined once but may be executed or invoked any number of times. — 1½ marks

Java Script supports two types functions:

- * Pre defined or Library functions
- * user defined functions

— 2 marks

— 2

— 1½ marks

- 33) (a) 100000101_2 (or) 00000101_2 (or) 101_2 — 1/2 marks
 (b) 100101_2 (or) 00100101_2 — 1/2 marks.

34) a) **Part - IV**
components of a computer (with a diagram)
— 2 marks

components:

1. Input unit
 2. Central Processing unit
 3. Output unit
 4. memory unit (with explanation)
- 3 marks.

b) i)

2	98
2	49 - 0
2	24 - 1
2	12 - 0
2	6 - 0
2	3 - 0
	1 - 1

Ans = 1100010.011101_2

$$\begin{array}{r}
 0.46 \times 2 = 0.92 \\
 0.92 \times 2 = 1.84 \\
 0.84 \times 2 = 1.68 \\
 0.68 \times 2 = 1.36 \\
 0.36 \times 2 = 0.72 \\
 0.72 \times 2 = 1.44
 \end{array}$$

0
1
2
1
0
1

— 2 1/2 marks

(ii)

11	0	10	10
0	10	11	01
10	01	01	11

— 2 1/2 marks

- 35) a) Slide Sorter view shows a thumbnail of each slide in order. Use this view to rearrange the order of slides, produce a timed slide show, or add transitions between selected slides.

— 2 marks

* Click View → Toolbars → Slide View to show the slide view toolbar

* Adjust the number of slides per row view → Toolbars → slide view will remove this toolbar from view.

* Use the control (ctrl) key + click on the first slide and, while pressing control select the other desired slides.

— 3 marks.

MRPL

b) Resize the width of a column using the mouse. — 2 marks.

Important Point: Format → Column → width.

→ 3 marks
By
RAJAKUMAR M.C.A., B.Ed
PG ASSIST Computer Science
TANZI PUROHIT
8122402435

- 36) a) Header: is a section of the document that appears in the top margin. — 1/2 marks
Footer: is a section of the document that appears in the bottom margin. — 1/2 marks

Inserting page numbers:

- Place the insertion pointer in the footer area
- Insert → Fields → page number. 2 marks

- b)
 1) wireless 4) Broadband 7) satellite 2 marks.
 2) Mobile 5) DSL 8) ISDN
 3) Hotspots 6) cable 9) Angled/ Data card.

(Explain any 5) 3 marks

- 37) a) Arithmetic operators +, -, ×, ÷, %, /, Y. → marks
 Example of result 4 marks — 4 marks

b) Malware, Harvesting, S.Dam, virus, Trojan horse. — 1 mark

- Explanation — 4 marks

- 38) a) The for loop is a very rigid structure that loops for a pre-set number of times. — 1 mark

Syntax: for (Initialization; Condition; Increment/Decrement)

{

Body of the loop; } — 2 marks

Definition — 2 marks.

- b) ROM - Read Only memory, PROM - Programmable Read Only Memory EPROM - Erasable Programmable Read Only Memory EEPROM - Electrically Erasable Programmable Read only memory. — 2 marks
 With ~~Explanation~~ Explain — 3 marks.
