

Ennum Ezhuthum – Term II – 2024 – 2025

Social Science – Summative Assessment

V STD

Name : _____

Time : 2 hours

Class : _____

Total Marks : 60

I. Choose and write the correct answer.

(5 x 1 = 5)

1. People who research the history of humans, the places they lived in and the objects found through excavations are _____ .
 - a) Scientists
 - b) Teachers
 - c) Archaeologists
 - d) Astronauts
2. The place where the pyramids are found is _____ .
 - a) Arikamedu
 - b) Adichanallur
 - c) Keeladi
 - d) Egypt
3. Which is the excavation site where Roman lamps were found? _____ .
 - a) Keeladi
 - b) Adichanallur
 - c) Arikamedu
 - d) Vembakottai
4. One of the findings of the Indus Civilisation excavations is _____ .
 - a) Granary
 - b) Pyramid
 - c) Roman lamps
 - d) Dinosaur eggs
5. The excavation site where Tamil-Brahmi letters inscribed pottery was found is _____ .
 - a) Adichanallur
 - b) Keeladi
 - c) Arikamedu
 - d) Egypt

II. Fill in the blanks.

(5 x 1 = 5)

1. A fresh waterbody that flows into the sea or ocean is _____ .
2. A large salt waterbody that divides the continents is _____ .
3. Water that falls from the top of a mountain is _____ .
4. A large salt water waterbody surrounded by land on one side is _____ .
5. Water that flows to the surface from underground due to high pressure _____ .

III. Match the following.

(5 x 1 = 5)

- | | | |
|--------------|---|--------------------|
| 1. Taj Mahal | - | Vatican City |
| 2. China | - | Diamond mine |
| 3. Africa | - | Great barrier reef |
| 4. Europe | - | India |
| 5. Australia | - | Great Wall |

IV. Write true or false.

(5 x 1 = 5)

- We should use water sparingly.
- We can dump garbage in waterbodies.
- Cattle should not be bathed in the pond.
- Rain water should be conserved
- Keep the tap open and brush your teeth.

V. Find the odd one based on the special features of the continents.

(5 x 1 = 5)

- Vatican City, Volga River, Ural Mountain, Island Continent.
- Taj Mahal, Great Wall of China, Nile river, The Himalayas.
- Dark continent, Small continent, Sahara desert, Nile river.
- Island Continent, Great barrier reef, Largest continent, Kangaroos.
- Finland, Srilanka, India, China.

VI. Identify and write the names of the continents based on the clues given.

(5 x 1 = 5)

- Penguins : Research stations of countries from all over the world
- Andes Mountains : Cotopaxi volcano
- Statue of Liberty : Lake Superior
- Amazon River : Aconcagua peak
- Mississippi - Missouri rivers : Rockies Mountains

VII. Read the paragraph and answer the questions.

(5 x 1 = 5)

The water from the Earth evaporates into water vapour, vapour condenses to form clouds and precipitates back to earth in the form of rain. This is called water cycle.

Water in waterbodies like oceans, rivers and lakes evaporates due to the heat of the sun. This is the first stage of the water cycle. Then, the water vapour condenses at low temperature and becomes water droplets. As the wind moves the water droplets around, clouds are formed. This is the second stage of the water cycle. These clouds collide with each other and fall as rain. This is the third stage of the water cycle.

- The first stage of the water cycle is _____ .
 - Rain
 - Condensation of water vapour
 - Cloud formation
 - Evaporation
- The second stage of the water cycle _____ is formed.
 - Rain
 - Cloud
 - Water Vapour
 - Wind
- The third stage of the water cycle is _____ .
 - Rain formation
 - Wind formation
 - Cloud formation
 - Evaporation of water
- Select the correct order of the stages of water cycle.
 - Evaporation of water, Cloud formation, Rain
 - Cloud formation, Evaporation of water, Rain
 - Rain, Evaporation of water, Cloud formation
 - Rain , Cloud formation, Evaporation of water
- As water is heated by the sun it becomes
 - Water vapour
 - Ice
 - Dust
 - Freshwater

VIII. Complete the table.

(5 x 1 = 5)

S. No.	Excavation Sites	Objects found
1	Keeladi	
2	Egypt	
3	Indus Civilisation	
4	Adichanallur	
5	Arikamedu	

IX. Answer in a few words.

(5 x 1 = 5)

1. What do we call the entire amount of water on the earth? _____
2. What is the solid state of water? _____
3. Which waterbody does not find on the surface of the Earth? _____
4. Which is called as "The blue pearl in the Space"? _____
5. Name any one fresh waterbody _____

X. Answer briefly.

1. Write any three types of waterbodies.

(1 x 3 = 3)

2. Write the types of lakes with examples.

(1 x 2 = 2)

XI. Answer in detail.

(1 x 5 = 5)

1. Write about the conservation methods of waterbodies.

XII. Identify the continents based on the clues given and mark them on the map. (5 x 1 = 5)

S.No.	Notes
1.	The continent where penguins live
2.	The continent without a desert
3.	The continent where Amazon Forests are located
4.	Dark Continent
5.	The continent we live on
