PG ASST ZOOLOGY

VAAGAI VIDHYALAYA MATRIC HR SEC SCHOOL,

PUDUPATTI.

P. R. PATTI (TK),

DHARMAPURI (DT).

XI - BIO-ZOOLOGY

WORKSHEET - II

I. Choose the correct answers:

50X1=50

- 1. Statoreceptors are meant for sensing
 - (1) Taste
- (2) Heat
- (3) Balance
- (4) Sound waves
- 2. The part of the neuron through which information travels as an impulse is
 - (1) Dendrite
- (2) Axon
- (3) Cell body
- (4) Nerve ending

- 3. The sequence of a reflex arc is
 - (1) Receptor \rightarrow Sensory neuron \rightarrow Motor neuron \rightarrow Effector \rightarrow Response
 - (2) Effector \rightarrow Sensory neuron \rightarrow Motor neuron \rightarrow Receptor \rightarrow Response.
 - (3) Effector \rightarrow Motor neuron \rightarrow Interneuron \rightarrow Receptor \rightarrow Response
 - (4) Receptor → Motor neuron → Sensory neuron → Effector → Response
- 4. The respiratory centre of the brain is located in
 - (1) Medulla oblongata
- (2) Pons
- (3) Cerebellum (4) Cerebrum

5. Spinal co	5. Spinal cord is the part of								
(1) A	utonomous ner	vous system		(2) Peripheral nervous system					
(3) So	omatic nervous	system		(4) Central nerv	ous system				
6. The largest and well developed part of the brain is									
(1) C	erebellum	(2) Cerebru	um	(3) Mid brain	(4) Medulla				
7. The part	7. The part of brain which is known as 'master of master gland'.								
(1) H	ypothalamus			(2) Pituitary gla	ind				
(3) C	erebrum			(4) Cerebellum					
8. Which p	art of the brain	control the p	osture	e and balance of	the body?				
(1) C	erebrum (2)	Medulla	(3) C	erebellum (4) I	Pons varoli				
9. The cells	s which help in	colour vision	ı is						
(1) C	ones (2)	Ganglion cell	ls	(3) Bipolar cells	s (4) Pods				
10. Find ou	it the incorrect	statement.							
(1) T	ne organ of cor	rti <mark>is pres</mark> ent o	on the	basilar membra	ne in the cochlea.				
, ,	(2) Rods contain pigmented protein called rhodopsin which helps in dim light vision.								
(3) T	(3) The tongue contains gustatory receptors for sweet, salt, sour and bitter.								
(4) M	acula and crist	ae are present	t in th	e inner ear whic	h function in hearing.				
11. The ho	rmone known a	as 'birth horm	none'	IS					
(1) Pr	colactin (2)	Oxytocin	(3) Pa	rogesterone	(4) Relaxin				

12. Somatoti	ropins are secre	eted by								
(1) Hy	pothalamus	(2) Pineal	(3) Thymus	(4) Pituitary						
13. The horr	nones with ant	agonistic action a	nre							
(1) Ad	(1) Adrenaline and Non-adrenaline									
(2) Gly	(2) Glycocorticoid and Mineralocorticoid									
(3) Ins	ulin and Gluca	gon								
(4) Th	(4) Thymosin and Parathormone									
14. The horr	none responsit	ole for changes in	female at pubert	y is						
(1) Est	rogen (2) F	Progesterone	(3) Testosterone	e (4) Oxytocin						
15. Dwarfisi	n results due to	o deficiency of th	e hormone							
(1) S or	matostatin		(2) Thyroxine							
(3) Soi	matotropin		(4) Mineralocor	rtodoid						
16. The folli	cle simulating	hormone (FSH) i	is secreted by							
(1) Th	yroid		(2) Anterior pitu	uitary						
(3) Pos	sterior pituitary	7	(4) Hypothalam	us						
17. Ovulatio	on in female is	controlled by								
(1) Est	rogen		(2) Progesterone	e						
(3) Fol	licle Stimulation	ng Hormone	(4) Lutenising H	Hormone						
18. The horr	none produced	by intermediate	lobe of pituitary	is						
(1) Ox	ytocin		(2) Vasopressin							
(3) Me	lanocyte stimu	lating hormone (MSH)							
(4) Fol	(4) Follicle stimulating hormone (FSH)									

19. Dwarfism results due to									
(1) Excess secretion of thyroxine	(1) Excess secretion of thyroxine								
(2) Lower secretion of growth ho	(2) Lower secretion of growth hormone								
(3) Higher secretion of growth ho	ormone								
(4) Hypo secretion of adrenaline									
20. The type of vision which helps org	anisms to be visualized at dim light is								
(1) Scotopic vision	(2) Photopic vision								
(3) Mosaic vision	(4) Binocular vision								
21. Select the wrong paired match from	m the following.								
(1) CNS – Site of information pr	ocessing and control								
(2) PNS – Transmission of imput	lses to and from the CNS								
(3) SNS – Relays impulses from	the CNS to skeletal muscles								
(4) ANS – Transmission of impu	lses from the CNS to voluntary organs								
22. The main mineralocorticoid seen in	n human is								
(1) Adrenaline (2) Testosteror	ne (3) Androsterone (4) Aldosterone								
23. The hormone which regulates basa	l metabolic rate (BMR) of the body.								
(1) Thyroid hormone	(2) Thymosin								
(3) Corticoid	(4) Pituitary hormone								

24. Select the incorrect pairs form to	24. Select the incorrect pairs form the following.						
A. Melanocyte stimulating hormone regulates skin pigmentation.							
B. Diurnal rhythm of our body	y is regulated by the hormone melatonin.						
C. The main glucocorticoid pr	resent in our body is cortisol.						
D. Calcitonin is secreted by pa	arathyroid gland.						
E. Iodine is essential for the synones.	ynthesis and secretion of parathyroid						
(1) A, C and D	(2) A, B and D						
(3) D and E	(4) B and D						
25. Choose the peptide hormone from	om the following.						
(1) Adrenaline (2) Insulin	(3) Testosterone (4) Thyroxine						
26. The hormone known as pregnar	cy hormone is						
(1) Prolactin (2) Oxytocin	(3) Estrogen (4) Progesterone						
27. The brain is responsible for							
(1) Thinking	(2) Regulation of heart beat						
(3) Thermo regulation	(4) All 1, 2 and 3						
28. Salivation at the sight of smell of	of food is						
(1) Peristalsis	(2) Reflex action						
(3) Sympathetic action (4) Parasympathetic action							
29. Diabetes insipidus is due to the	29. Diabetes insipidus is due to the deficiency of hormone						
(1) ADH (Anti Diuretic Horm	one) (2) Insulin						
(3) Glucagon	(4) Cortisol						

- (1) Nerve impulse travels from dendrites end to axonal end.
- (2) The chemical released from axonal end of one neuron crosses the synapse and generates impulse in dendrite of other neuron.
- (3) At dendrite end, electrical impulses bring about the release of neurotransmitters which generate an electric impulse at the axonal end of another neuron.
- (4) A neuron transmits electrical impulses not only to another neuron but also to muscle and gland cells.
- 31. Spinal cord originates form

(1) Cerebrum

(2) Medulla

(3) Pons

(4) Cerebellum

32. The activity of brain is generally recorded by

(1) ECG

(2) MRI scan

(3) CT scan

(4) EEG

33. The source of progesterone is

(1) Corpus luteum

(2) Ovary (3) Ovarian follicle

(4) Uterus

34. Select the wrongly paired match.

- (1) Parietal lobe Touch, smell, temperature and conscious association
- (2) Occipital lobe Visual reception
- (3) Frontal lobe Sexual behaviour and emotions
- (4) Temporal lobe Auditory reception
- 35. Hormone responsible for the development of moustache and beard in man is

(1) Sex corticoid	(2) Test	tosterone	(3) Thyroxine	(4) Thymosin			
36. The impulse of sound	is conduc	ted to the bra	in by				
(1) Olfactory nerve		(2)	Auditory nerve				
(3) Optic nerve		(4)	Trachea nerve				
37. The waxy substance which coats the surface of auditory canal is							
(1) Mucus (2)	Plasma	(3) Endolym	nph (4) Cerum	nen			
38. Tectorial membrane is found in							
(1) Brain (2)	Eye	(3) Ear	(4) Digest	ive tract			
39. Short sightedness is ot	herwise k	nown as					
(1) Myopia (2)	Hypermy	opia (3)	Astigmatism (4) I	Presbyopia			
40. An animal having mor	e rods wi	ll be					
(1) Active during da	y	(2) Activ	e during night				
(3) Have colour vision	on	(4) Equal	ly active during d	ay and night.			
41. Circadian rhythm is re	gulated by	y					
		Melatonin					
42. The two lateral lobes of the pituitary gland is connected by							
Isthmus							
43 goitre is a genetic disorder.							
	S_1	porodic goitre	e				

44. Iodine deficiency causes
Hypothyroidism
45. PTH is a
Hypercalcemic hormone
46. Hypothalamus and pituitary are connected by
Hypothalamic hypophseal portal blood vessel
47. The posterior pituitary is connected with hypothalamus by a nerve bundle
called
Hypothalamic hypophseal axis
48. MSH induces
Pigmentation of the skin
49. ACTH secretion is regulated by
Negative feedback mechanism
50. Epiphysis cerebri or conarium otherwise called as
Pineal gland
ALL THE BEST
